

Anti-Aging and Immune Booster*

Super Nano-Green Tea™

*Highly Bioavailable Immune and Anti-Aging Support**

**Quantum Quality Green Tea
for the Whole Family**

Centuries of Use

Green tea has graduated from the teapot to the medicine chest as science has shown its wide-reaching effectiveness in addressing ailments ranging from sunburn to tumors. Research conducted in the last 20 years has confirmed that green tea, known primarily as a pleasant beverage around the world, contains an impressive healing potential that traditional healers have been tapping into for centuries.

What is “nanized” green tea?

The word “nano” means very, very small. A “nanized” tincture of green tea contains grade 10 green tea that has been “nanized” or pre-digested into very, very small particles which makes them extremely bio-available. Even those with poor digestion can rapidly absorb the “nanized” green tea. Super Nano-Green Tea™ really demonstrates the power of the old saying, it’s not what you take, but what you absorb that makes the difference.

Super Nano-Green Tea™ Key Benefits

- “Nanized” Green Tea: a revolutionary, highly absorbable extract so you can receive all of green tea’s benefits
- Promotes healthy immune system function*
- Supports normal blood pressure, normal blood sugar, normal cholesterol and normal fat levels*
- Powerful antioxidant; helps prevent AGEs (Advanced Glycation End-Products)
- Remarkable support for healthy connective tissue and joint flexibility*
- Use ½ to 1 teaspoon in 4 oz. purified water or juice upon arising and 1 hour after dinner

Super Nano-Green Tea™ is the natural next step, unleashing all of green tea’s powerful benefits not just for those with good digestion and absorption, but literally everyone. It is the first nutraceutical preparation designed to assure absorption of the full spectrum of green tea’s awesome polyphenols. Using only quantum quality, organic green tea that has been “nanized” (i.e. pre-digested into extremely small particles), Super Nano-Green Tea™ is rapidly absorbed into the blood stream where it immediately goes to work. Even those with poor digestion can enjoy the full benefits of Super Nano-Green Tea™’s highly bio-available nutrients. No other form of green tea can offer such a quantum boost in phytonutrient bioavailability and quality.

The Quantum Nutrition Effect

100% quantum quality nutrients (exquisitely well grown & toxin-free), which promote the most rapid shift to ideal cellular resonance for great health

Green Tea vs. Black Tea

Green tea has become famous for its spectacular benefits in comparison with black tea. What's the difference between green tea and black tea? Although both teas come from the same plant (*Camellia sinensis*), it is the processing that makes the key difference. Green tea leaves (harvested as young, healthy, dark green leaves) are steamed to prevent them from fermenting, keeping their green color and potent phytochemicals intact. In contrast, black tea is really green tea that has been fermented, thus changing the color from green to black but also destroying the healing phytochemicals.

Green Tea's Secret

The key phytochemicals in green tea, called polyphenols, have captured the attention of many scientific studies. They give Super Nano-Green Tea™ its special power.

Dr. Yukihiko Hara, noted researcher and a world authority on green tea, has found that its polyphenols help promote normal blood sugar, normal blood pressure, normal cholesterol and normal fat levels. Polyphenols have also been shown to protect DNA from damage inflicted from harmful chemicals and even radiation. Green tea's polyphenols are also extremely effective as antioxidants capable of promoting a healthy immune system as well as providing extraordinary protection for the heart, kidneys and the skin.

Recommended Use

Adults or children (age 4 and up): Take 1/2 to 1 teaspoon mixed in 1/4 cup water or juice daily.

Super Nano-Green Tea™: Ingredients

8 fl. oz./bottle

Highly Bio-available "Nanized" Grade A Fermented Japanese Green Tea (*Camellia sinensis*), delivering 102mg polyphenols per serving., Bifidobacterium (breve ss. breve, infantis ss. infantis, longum), Enterococcus (faecalis TH10, faecium), Lactobacillus (acidophilus, bulgaricus, casei ss. casei, fermentum, helveticus ss. jagurti, plantarum), Streptococcus thermophilus; in a base of purified water, 20% organic grain neutral alcohol

Other Ingredients: None (no toxic tagalongs such as magnesium stearate, natural flavors [MSG], etc.)

Why use an alcohol tincture?

Top grade, organic alcohol is nature's perfect preservative. Its indigenous vasodilative properties function as a perfect transporter of our super-nanized phytonutrients into the blood to deliver almost immediate uptake, unparalleled by ordinary supplements.

For centuries, Oriental Medicine has known that nutrients preserved in alcohol directly target the liver, getting a faster, deeper response than when no alcohol is used. Tinctures preserved with alcohol have been used effectively for centuries. In contrast, tinctures made with a glycerine base cannot deliver the same effect as tinctures with an alcohol media. In addition, over time, nutrients degrade in the glycerine, slowly losing their potency.

Only the Best. We use only organic alcohol, free of pesticides and chemotoxins. (Avoid tinctures with conventional alcohol because typically it is contaminated with chemotoxins.)

Want to avoid alcohol? In a typical dose (1/2 teaspoon) of tincture, you receive about 1/90 of an ounce of alcohol. For those who want to avoid alcohol but still get the full benefits of the extract, simply place a dose of the extract (usually 1/2 teaspoon) in a cup and add 1/2 cup of very hot water. Wait for 5 or 10 minutes for the alcohol to gas off. (Alcohol boils at 172° F. [or 78.5° C.] and will gas off at temperatures below boiling.)
